JUSTIN HOBBS

SOFTWARE DEVELOPER

San Marcos, TX | justin.hobbs@icloud.com
linkedin.com/in/jstnhbbs | github.com/jstnhbbs

Software developer with experience maintaining ColdFusion applications, contributing to a Next.js migration, and implementing a client website redesign. Building Tugboat, a native iOS family dashboard backed by Next.js. Background in technical troubleshooting, user training, and production operations.

TECHNICAL SKILLS

Next.js, TypeScript, JavaScript, React, Swift, SwiftUI, ColdFusion / CFML, HTML, CSS
PostgreSQL, Turso / SQLite, Drizzle ORM, REST APIs, Git, Ruby on Rails

PROFESSIONAL EXPERIENCE

Junior Software Developer | Degnon Associates | Jun 2023 - Oct 2026

- Contributed to an ongoing migration of a legacy ColdFusion codebase to Next.js.
- Implemented a client website redesign that launched in October 2026.
- Built and maintained server-side application features in ColdFusion.

Production Technician | Hill Country Bible Church | Sep 2020 - May 2022

- Managed weekly productions and provided technical training and support across multiple campuses.
- Maintained and installed production equipment for recurring services and special events.

Production Manager | Grace Bible Church | May 2018 - Jul 2020

- Managed live productions across three campuses and implemented an online streaming service.
- Developed, trained, and managed more than 40 production volunteers.

SELECTED PROJECTS

Tugboat | Personal Project | SwiftUI, Next.js, TypeScript

- Evolved a household web dashboard into a native SwiftUI app for iPhone and iPad.
- Connected the app to a Next.js backend through REST APIs for shared household data.
- Integrated device calendars with EventKit and built tools for routines, chores, and meal planning.

My Disc Bag | React, Ruby on Rails, Material UI

- Built the front end and back end of a disc golf inventory and bag-building application.

EDUCATION AND TECHNICAL TRAINING

Flatiron School | Software Engineering Program | 2022
Blinn College | Associate of Science in Mathematics | 2012
